I have tried to present a system thorough and simple, illustrating in detail the requirements for the real artist and the training necessary to familiarize them with the technical details of the profession. By reason of my eight years constant teaching and my fifteen years of service in the work, I feel that no one has had a better opportunity to practice and study the work that I now lay before you. I hope to make this book of more than ordinary service, and by following its instructions closely, combined with the advantages our colleges offer, there is no chance for failures.
