Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The Necessity of Finance: An Overview of the Science of Management of Wealth for an Individual, a Group, or an Organization provides a comprehensive, concise orientation for those seeking an understandable presentation of the complex nature of finance. Criniti IV, a former financial consultant and current university-level finance professor, sets out to detail the necessity of finance; to clarify the definition, purpose, and goals of both finance and economics; to explore financial concepts in a straightforward manner; and to stimulate interest and understanding that will lead to ongoing investigation. Topics include: What is the difference between money and wealth? What is risk and return? What kinds of investments exist? What are the different techniques for selecting investments? What role does ethics play in finance? While The Necessity of Finance does not replace required textbooks, it is an indispensable supplemental learning tool that may clarify expectations of future financial journeys, whether in a university or in the...
