Harper Voyager Impulse, United States, 2015. Paperback. Book Condition: New. 168 x 109 mm. Language: English . Brand New Book. Anders Jensen is having a bad month. His roommate is a data thief, his girlfriend picks fights in bars, and his best friend is a cyborg and a lousy tipper. When everything is spiraling out of control, though, maybe those are exactly the kind of friends you need. In a world divided between the genetically engineered elite and the unmodified masses, Anders is an anomaly: engineered, but still broke and living next to a crack house. All he wants is to land a tenure-track faculty position, and maybe meet someone who s not technically a criminal but when a nightmare plague rips through Hagerstown, Anders finds himself dodging kinetic energy weapons and government assassins as Baltimore slips into chaos. His friends aren t as helpless as they seem, though, and his girlfriend s street-magician brother-in-law might be a pretentious hipster or might hold the secret to saving them all. Frenetic and audacious, *Three Days in April* is a speculative thriller that raises an important question: once humanity goes down the rabbit hole, can it ever find its way back?.
