This being so, to remain in ignorance of the enemy s condition simply because one grudges the outlay of a hundred ounces of silver in honors and emoluments, is the height of inhumanity." Sun Tzu on the utility of intelligence and spying, "Art of War," Chapter 13. World War II stood apart in many ways from every earlier war, not least in the way that it reached to every corner of the planet and involved a noticeable segment of humanity s collective resources. Battles erupted not only on land and the sea s surface as they had for centuries, but also in the ocean depths and the windswept heights of the sky. One of the war s most crucial struggles happened in the realm of the unseen, inside the human mind and amid the invisible flow of radio waves. Every war is a battle of wits as intelligence-gathering, tactics, and strategies clash, from the level of individual action up to the grand, overarching schemes of generals and statesmen. Intelligence took on a freshly urgent aspect in World War II, however, as the fate of offensives, armies, and nations came to hang on the struggle to decrypt vital enemy radio traffic and military communications. During the Second World War, cryptography suddenly became a significant factor in warfare because of mid 20th-century advances in communications technology. With...
