Language: English Brand New Book ***** Print on Demand *****.Excerpt from Smithsonian Institution United States National Museum Bulletin 76, Vol. 2: Asteroidea of the North Pacific and Adjacent Waters Part 1 of this work, comprising the Phanerozonia and Spinulosa, was issued on June 30, 1911. The present part contains an account of the families Brisingidae, Zoroasteridae, and four subfamilies of the Asteroiidae - the Pedicellasterinae, Labidiasterinae, Coscinasteriinae, and Pycnopodiinae. The remainder of the Forcipulata will be described in the final installment, the manuscript of which is completed. Material for study has been derived from the sources which were indicated in Part 1 (p. 1). In addition I have gone over the British Museum collection; some of the types in the Museum d Histoire Naturelle at Paris; the collection of the Peabody Museum, Yale University (including a part of Verrill's material); and all of the collection of the United States National Museum. Through the kindness of Dr. T. Odhner, of the Riksmuseum, Stockholm, I received a small collection from the Vega Expedition as well as miscellaneous Arctic specimens for comparison. The Victoria Memorial Museum (now the National...
